Your 47/16 of 9 November 1971 refers.

There is no objection to A.A. Simpson removing 500 c.yds of sand from the foreshore adjacent to the Pitoone Stream mouth.

The area shown with an arrow on the 1 inch to 1 mile map indicates the area of extraction to be at and immediately west of the 'blow out' position of the Pitoone Stream mouth. This area is also the start of 15 to 25 feet sand hills extending westward towards Rings Beach. Removal of sand near the base of the sandhills should be prohibited.

The Manager,

P.O. Box 108,
WHITIANGA.

Dear Sir,

SAND AND SHINGLE ROYALTIES REVISION.

The Minister of Marine has approved, pursuant to Section 146A of the Harbours Act 1950, a revision and simplification of the above royalties.

As from 1st September, 1967, except as in paragraph 3, royalties payable for the removal of all materials from Crown foreshores or the beds of navigable rivers or the sea are to be standardised. The royalties are to be 20 cents per cubic yard, but for materials dredged from below Low Water mark of the sea they are to be 10 cents per cubic yard, in view of the special equipment - barges, tugs etc. required.

When it is apparent that the total quantity of material available for removal, as recommended by the Ministry of Works, cannot reasonably be allocated by licence to more than one Contractor, the Secretary for Marine or Superintendent of Mercantile Marine may, if he wishes, call for tenders in relation to the royalty to be charged, and accept the highest tender from a reputable Contractor.

All previous Ministerial notices are cancelled.

Yours faithfully,

for B.E. TURNER,
District Officer.

Dear Sir,

REMOVALS OF SAND AND SHINGLE - KUAOTUNA BEACH:

We have been advised by the Ministry of Works, Paeroa, that removals of sand and shingle from the above beach are to stop, from the area between the Pitoone Stream and the County Quarry to the east. All removals are to be confined to the area to the west of the Pitoone Stream.

In anticipation of your co-operation.

Dear Sir,

re REMOVAL OF SAND AND SHINGLE FROM LEGAL ROADS
ALONG SEAFRONT, KUAOTUNA:

Mr. M. Hodge, carrier of Kuaotuna and possibly Mr. A.A. Simpson, contractor of Whitianga, have been taking sand and metal from the foreshore in Block I Obama S.D., between the Council's quarry, 1 ac. 1 rd. 30 pchs, and Section 2A.

The Commissioner of Crown Lands, Hamilton, advises that this foreshore is a legal road and suggests that Mr. Hodge's actions should be regularised and perhaps some revenue gained.

Councillor Hale of Kuaotuna, has drawn the writer's attention to sea erosion in this area. An inspection revealed that erosion is indeed in evidence on P.S.H. 25, and the writer also fears that removal of sand and shingle, if continued at present, may result in the loss of land by sea intrusion along Bluff Road between the new Peebles Bridge site (Pitoone Stream) and the intersection with P.S.H. 25.

Both Mr. Hodge and Mr. Simpson claim to have licenses from your Department to operate on this foreshore. Whilst it is realised that the loss of this area as a source for sand supplies will not be popular, the writer and local Councillors feel that until such time as the sand hills build up and stabilise against erosion, all licenses for the removal of shingle and sand should be cancelled.

The writer has already taken some action but full effect has not been given to these warnings.

Would you please investigate and take any necessary action.

Yours faithfully,

M.O. Anstiss.
