Removal of Sand and Shingle

Thank you for your reminder of 18 April 1972.

I wish to apply for a permit to remove up to 1100 c.yds
sand from Tairua Harbour upstream of Pepe Stream Bridge.

It is doubtful that sand or shingle will be required
from the Kuaotunu area or the Tarapatiki Stream on the north
end of Buffalo Beach. If so, a firm application will be
placed when the forward works programme is known.

Please note on back of form, the obligation to supply annual returns of production from quarries.

(Occupier or Manager)

SECTION 23 OF THE QUARRIES ACT, 1944

(As amended by Section 11 of Quarries Amendment Act, 1954).

Annual returns by occupiers.—

(1) The occupier or manager of every quarry shall in the month of January in each year furnish to the Inspector, in the prescribed form, a return showing:—

- (a) The quantity, and the estimated value at the quarry, of material produced at the quarry during the year ended on the thirty-first day of December then last past:
- (b) The number of persons ordinarily employed in or about the quarry during the year:
- (c) Such other particulars as may be prescribed.

(2) Every person who makes default in furnishing any such return or in causing it to be furnished, or who furnishes any return that is wilfully false or misleading in any particular, commits an offence against this Act.

(3) The Minister may cause any return as aforesaid, or any extract therefrom or synopsis thereof, to be published in such manner as he thinks proper.

(4) The provisions of this section shall apply to the occupier or manager of any place other than a quarry where persons work in excavating material from the earth in all cases where an Inspector serves notice on any such occupier or manager that he is required to furnish the information referred to in subsection one of this section.

This form must be produced when demanded by an officer or representative of the Marine Department
